WHICH WAVE WAS BIGGER?

Maya Gabeira

Justine Dupont

BEFORE MISSION

IMPOSSIBLE

Technological and Logistical Hurdles

Subjectivity in Estimation

Lack of Scientific Validation

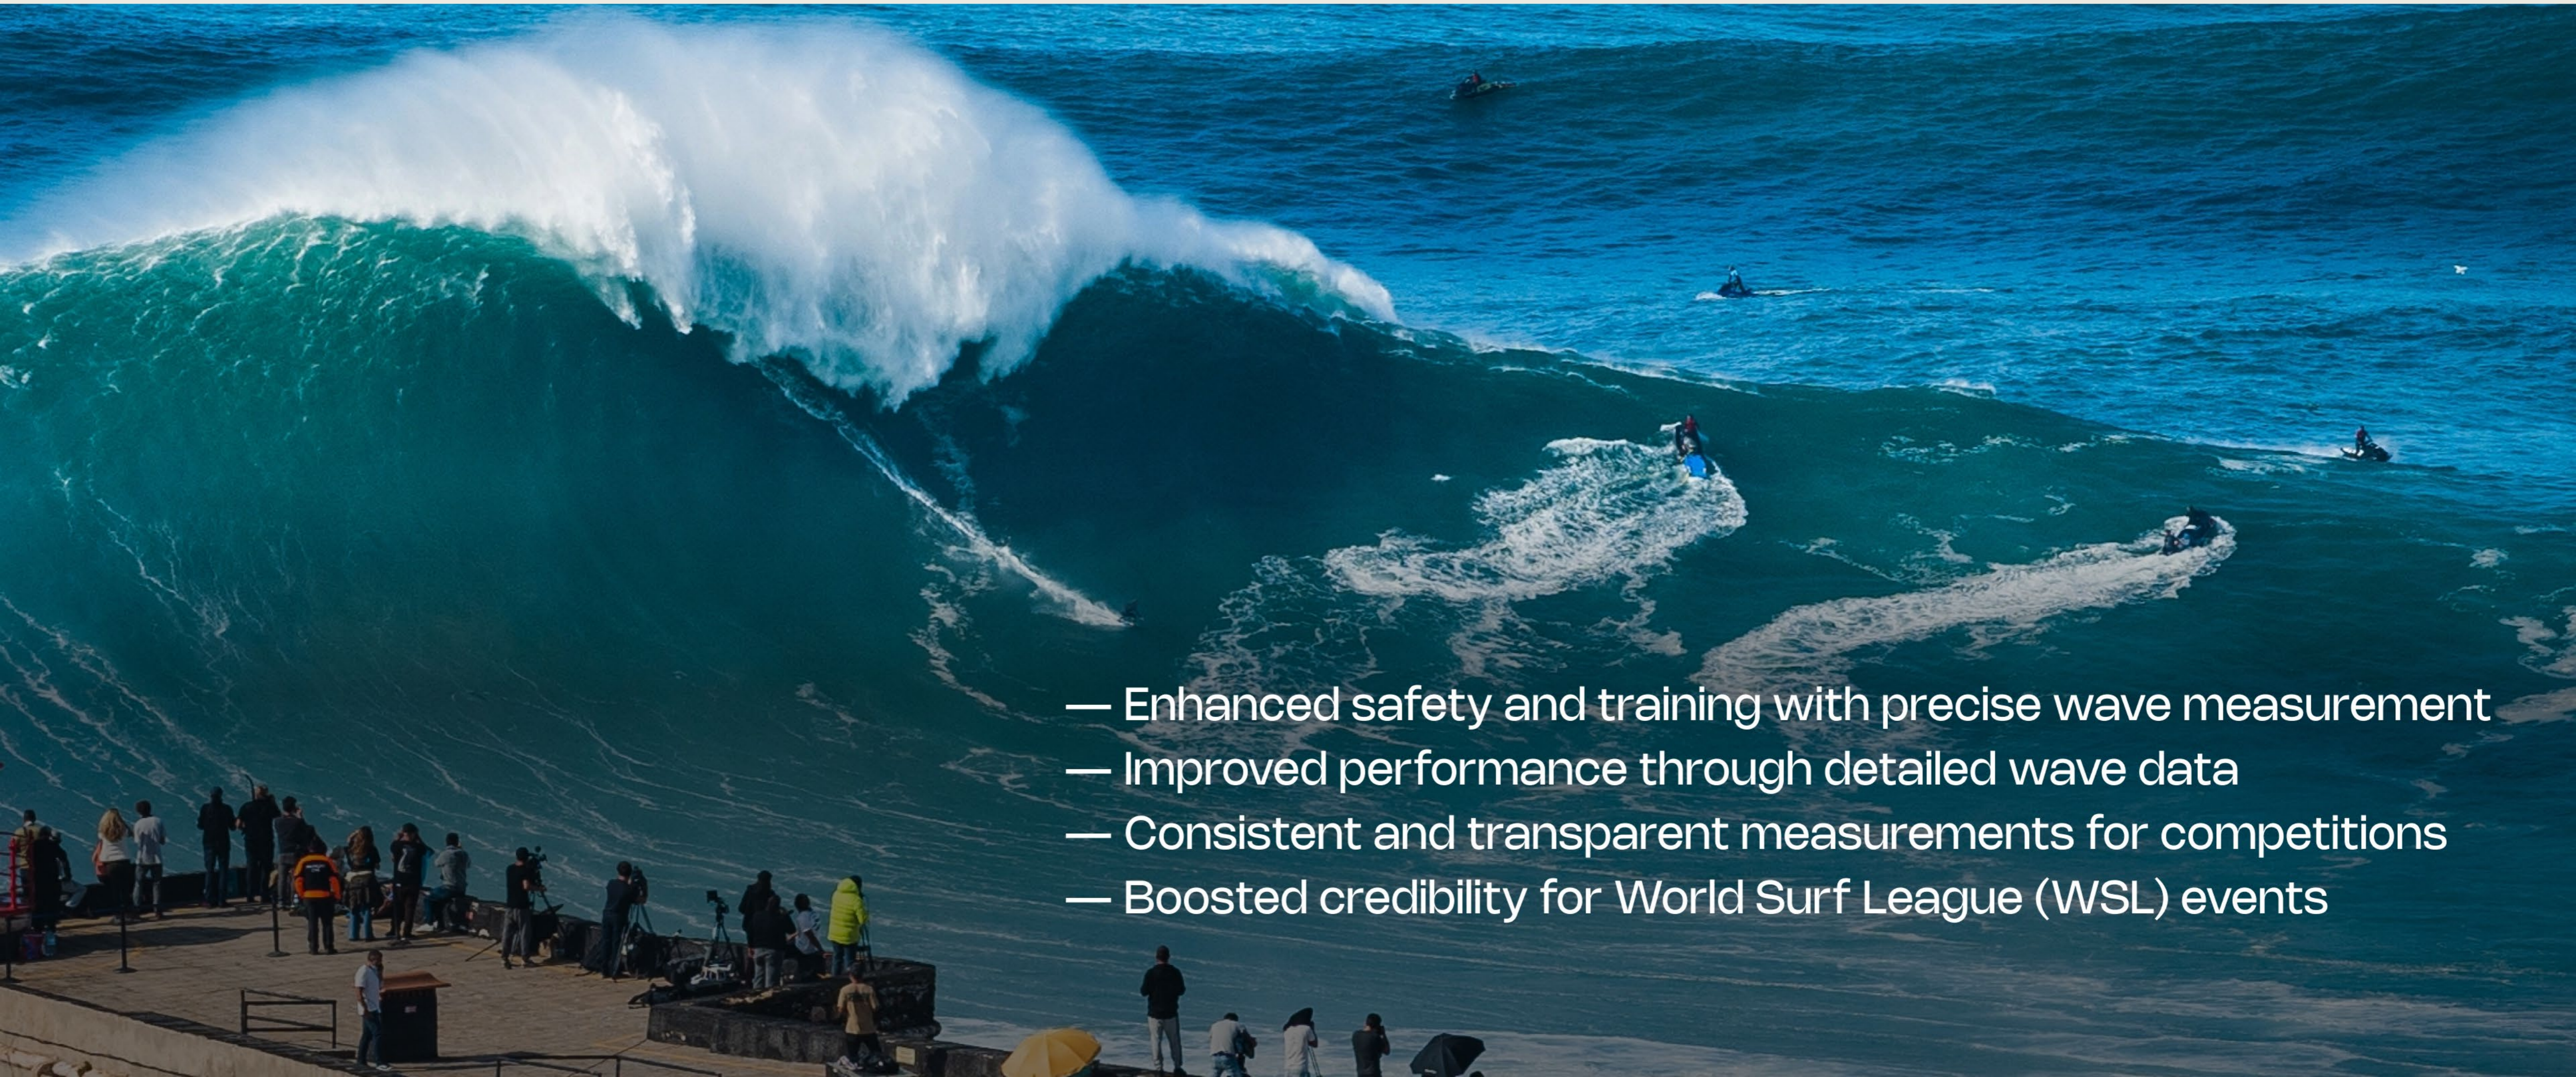

NOW The Science

BREAKTHROUGH

Revolutionary Stereo-Video Technology

1. Eliminates subjective guessing
2. Provides accurate 3D sea surface for precise measurements
3. Scientifically validated

WHY this matters

- Enhanced safety and training with precise wave measurement
- Improved performance through detailed wave data
- Consistent and transparent measurements for competitions
- Boosted credibility for World Surf League (WSL) events

RIDE THE WAVE

Join us in unveiling the true majesty of these ocean giants
